

ABOUT QUENTYN

BIO

Quentyn is a Dutch artist, songwriter and producer based in Amsterdam, known for his innovative approach of blending euphoric festival-inspired melodies with organic indie band sounds.

With his upcoming album, Quentyn has found the sweet spot between nostalgic indie sounds and euphoric melodies, merging the worlds of band music and electronic beats. His creative process is truly unique, working in complete solitude from his attic studio in the heart of Amsterdam, using just a piano as his starting point.

In this brand new live set, he offers a glimpse into his studio, taking you on a journey through his creative process, performing as a one-man band with guitar, synths, and drum machines. His sound is inspired by artists like Phoenix, Empire of the Sun, and Nothing But Thieves.

Quentyn was part of an electronic producer-duo where they did worldwide tours playing for 15.000 people on stages such as Sziget. They remixed artists like Tegan & Sarah, DEV and A-Trak (gaining over 100 Million streams across platforms). With prior credits on tracks for major dance artists, Quentyn has established himself as a significant force in the music industry.

In April 2021, Quentyn's debut album 'Enroute' hit the charts, reaching over 15 million streams, and solidifying his place as a rising star in the music industry.

Through his label, Enroute Records, Quentyn is fostering the growth of this unique genre by releasing works from talented artists such as Big Data, Anoraak, Josha Daniel, Roisto, Arno Cost, J. Laser, and others.
